

Project Prototype **NS-Project**

Title: Designing a webpage

Group Name: Tech Ninjas

Group Members: Sakir Shah, Omkar Mhadgut, Krishna Das ,Navin kumar dubasi
Prakash Verma.

- Our aim is to create a gaming website which contains 6-8 self-made games created in JavaScript.
- The website will contain a login portal. Users will be able to create an account which will allow them to record their previous scores.
- Top scores achieved by logged-in members will be displayed in the leaderboard section and which can be filtered by the net score or by the individual scores in the different games.
- Users will have personal profiles which can be visited by other users.
- JavaScript and CSS will be used to create most of the websites front-end.
- PHP and SQL will be used for the backend and to store the all the data.
